

Replace a traditional office with a rotational.

How do you benefit?

EVEN GREATER SAVINGS

You can save up to 20%* compared to traditional rent - one desk will serve several of your employees.

You save on the costs of adjusting the space (fit-out) to the necessary working conditions and standard.

A CONTRACT ADAPTED TO YOUR CURRENT DEMAND

You can freely and quickly adapt the office space to the current demand.

You decide on the number of employees with access to the office, without paying for empty work stations.

SAME HIGHEST QUALITY OF WORKING SPACE

You will decide on top locations and class A office buildings operated by the largest customer service team on the market.

You're choosing a company from the Skanska Group - safe and financially stable.

Traditional contract
100 workstations

Rotation contract
50 workstations

YOUR SAVINGS

#ROTATE

* Potential savings were calculated by comparing the cost of renting space for 100 workstations for 100 employees under traditional rental and the use of a flex (serviced) office, assuming the rotation available under the new Business Link service (100 employees = 50 workstations).
